## SUMMARY

Motivated and enthusiastic Computer Engineering student at PCCOE with a strong interest in Artificial Intelligence, Machine Learning, IoT, and software development. A CRESA member with experience in teamwork, event coordination, communication, and collaborative problem-solving through department-level activities. Eager to apply technical knowledge and practical skills to real-world projects while continuously learning and developing professionally.

## EDUCATION

[B.Tech in Computer Engineering
[Third Year / CGPA : 8.5 [2024] – [2028]

## KEY ACHIEVEMENTS

- Active Member, CRESA, PCCOE — Contributed to department-level events and student activities.
- Participated in technical projects involving Artificial Intelligence, Machine Learning, and IoT.
- Developed practical experience through academic projects, technical presentations, and collaborative activities.
- Contributed to event coordination and management as part of CRESA activities.

## RELEVANT EXPERIENCE

### Member — Cresa (Event Management Team, PCCOE)

- Actively participated in CRESA activities and department-level events, contributing to their planning and smooth execution.
- Assisted in event coordination, including venue setup, participant management, and on-ground support during department activities.
- Worked collaboratively with CRESA team members to ensure effective communication and coordination during events.
- Supported event operations such as registrations, crowd/participant management, and coordination with volunteers.
- Contributed to maintaining a well-organized environment during workshops, seminars, cultural activities, and other CRESA programs.
- Developed practical skills in teamwork, communication, time management, coordination, and working under deadlines.

## PROJECTS / EVENTS

- **CRESA Induction Programme** — Supported the organization and on-ground coordination of the induction program, assisting with participant management and event execution.
- **Techno-Insights Symposium** — Contributed to event coordination and participant management during the technical symposium featuring industry and academic speakers.
- **LLM Hands-on Workshop** — Assisted in coordinating a technical workshop focused on Large Language Models, Machine Learning, inference frameworks, and quantization.
- **CHAKAVA** – The Lost Warrior Treasure Hunt — Supported event coordination and participant management for a multi-round department-level competition involving 170+ participants.
- **Tech Fest** — Contributed to organizing the department tech fest and visited other colleges to promote the event and encourage student participation.

## SKILLS

Event Coordination • Teamwork & Collaboration • Communication • Time Management • Leadership • Volunteer Management • Problem Solving • Event Planning • On-ground Coordination
